MANASAH PERKINS, Treas.

We, the undersigned, have this day examined the accounts of the School Treasurer and find them correctly cast and properly vouched for.

L. T. MCINTIRE,	} Auditors.
JOHN W. CRAWSHAW,	
S. R. PLAISTED,	

REPORT OF SCHOOL BOARD.

TO THE PARENTS AND TAXPAYERS OF JEFFERSON:—

Your schools have been maintained in compliance with your vote, "30 weeks," in every instance except in the valley district, which has been in session only 20 weeks. Owing to sickness in the home of the teacher, Miss Smith, the school was stopped for a time, and when the fall term was completed it was thought best, both by the parents in that district and the school board, to wait until longer and warmer days. Hence it will be necessary to have that school in session more than others the coming spring and summer.

The interest in the schools has been very satisfactory except in some few cases. The attendance good with exceptions, Starrking school leading in attendance with an average for the year of 96 per cent., and 18 out of 24 in perfect attendance in summer term. Several other schools were excellent. Sickness in the form of whooping cough and diphtheria have caused absences and schools to be stopped for a time. In the lower school on the Hill a different teacher each term has caused some friction. Miss Brooks' sickness in the spring term and resignation in the winter term. This forced change of teachers has fully demonstrated the advisability of retaining teachers when good as long as possible. We have been compelled to expel three students in the upper school at Meadows for absolute refusal to comply with the rules of school, Viola Stillings, Frida and David Longway. It seemed to us that with proper co-operation on the part of the parents such extreme cases of discipline might have been avoided.

Each term and year points with absolute certainty, the lack of some parents to assist in making the schools a success. The school board and the teacher in every case have worked together to effect good results, and where the parents have worked with us we have not failed in a single case. Attendance, discipline and interest are largely what the home influence makes them,

In the summer term, Mrs. Jennie Bedell visited all the schools from week to week and gave instruction in vocal music. The scheme seemed to the several teachers and the school board to be a grand success and gave almost universal

satisfaction so far as we have been able to learn. It was with much regret on our part that we were not able to secure her to continue in the fall term, but hope to go on with the work in the spring.

We were compelled to establish a school near the Maine Central station. Had we not, the town would have been obliged to have paid the town of Whitefield tuition on four children who live on the Knothole road, besides paying something toward conveying them. The saving thus made, together with charges for conveying the increased number of children in that locality has nearly supported the school. The indications point to a larger, rather than a less number of children and the advisability of taking action about a school building in that locality. The furnace in the Hill school house has failed to heat the building in a satisfactory way from the day it was put in and, of course, it is getting worse. The building is not a warm one, and with a poor furnace, it is uncomfortable for our children. Some action should be taken. The State aid for lengthening and improving our schools was \$543 this year against \$703 last year, ten additional towns receiving aid.

The friends of education are working with our legislature to continue this equalization of school funds. It has been of great help to us. In view of this aid we started the vocal music, have added 20 maps, geographical and physiological, a few globes, and supplied a long felt want in the high school by purchasing as reference books "The Encyclopedia Britannica." This is the acknowledged standard among the English speaking people. It is in 30 volumes, up-to-date, a work of great merit and will be of substantial aid. The standard of text books has been improved by the addition of up-to-date geographies and several works in supplementary reading. The High school is in great need of apparatus for better teaching which we think can be supplied from time to time if the state aid is continued. The prize speaking and general school entertainment last June was pronounced a grand success by all in attendance.

The display of botanical work by the school so much pleased Miss Mary Wright that she most generously offers \$10 to be given in prizes for the most excellence in this line, \$5, \$3 and \$2. Blanch Plaisted and Flossie Barnett each re-

ceived \$2.50 of the prize offered last year by Rev. Mr. Thompson.

Of the available school money, state aid, bank tax, literary fund, dog tax and amount raised by town, amounting to something more than \$3100, a little less than \$3000 has been used. The amount to be raised this year will depend upon how much the state assists us. It was found necessary to increase the salary of the High school teacher \$2 per week. The enumerator of schools reports the number of boys in town between five and 16 years, 137; girls, 119; total, 256, an increase of 7. Of these only a very few have failed to attend more than the law specifies. In closing let us enjoin upon you individually the necessity of close attendance, home encouragement to study and vigorous cooperation by parents as the key note to grander success in our schools in the future.

Respectfully submitted,

C. EUGENE HIGHT,	}	School Board.
ABNER DAVIS,		
GEO. C. EVANS,		

Feb. 20, 1901.

VITAL STATISTICS.

In compliance with an act of the Legislature passed June Session, 1887, requiring "clerks of towns and cities to furnish a transcript of the record of births, marriages and deaths to the municipal officers for publication in the annual report," I hereby submit the following:

JOHN A. HICKS, Town Clerk.

Births Registered for the Year Ending December 31, 1900.
